

SALE Combination Label Order Form

Please allow two weeks to receive your labels from the time we receive your order.

NOTE: NAFED's Combo Label can be used for hydrotesting or for six-year maintenance requirements. It meets the size mandated by NFPA 10. However, last year the DOT issued a written notification stating that simply including a company's RIN, "S," and punching out the month and year of service on Combo Labels or Hydrotest Labels was NOT in compliance with their regulations; this Combo Label does NOT meet regulations for DOT specification cylinders being used as fire extinguishers by companies that hold a RIN. To avoid confusion, NAFED has stopped including RIN and "S" on Combo Labels and Hydrotest Labels. There are two options: use another label that is in compliance, or write to the DOT and ask for a variance from their requirements. Using NAFED's new DOT Hydrotest Label (which includes the letter "S", a company's RIN, and space to write the month and year of the test) will bring you into compliance with the DOT's requirement. Visit www.nafed.org/products to download an order form for NAFED's DOT Hydrotest Label, or call (312) 461-9600 to have one faxed to you. **NOTE:** In order to be compliant with DOT and NFPA 10 requirements, a DOT Hydrotest Label needs to be applied in addition to a standard NFPA 10-style Hydrotest Label or Combo Label.

SALE Customized DOT Hydrotest Labels

Labels are produced monthly. All orders received by the 30th of each month will be shipped by the 15th of the next month

Labels typically ship 2 weeks from the due date (see right). If you have any questions, please contact NAFED at (312) 461-9600.

This label meets DOT requirements for hydrostatic retest of DOT cylinders used as fire extinguishers. It measures approximately 1-1/2 in. wide x 1 in. tall. It includes a space to write the month and year of retest. It has a self-adhesive Mylar overlay cover that protects the entire surface and provides long-lasting readability. For an added layer of security, they are self-destructive. **NOTE: this label does not meet size requirements mandated by NFPA 10.** Using NAFED's Combination Label or Hydrotest Label will bring you into compliance with NFPA 10 requirements. Visit www.nafed.org/products to download order forms for these labels, or call (312) 461-9600 to have them faxed to you.
